FOR IMMEDIATE RELEASE

20 YEARS OF CARING Rosehedge AIDS Housing and Health Care Celebrates Anniversary

When Rosehedge welcomed its first residents in 1988, some were so sick they died within days. 20 years later, most residents of Rosehedge have years in front of them. Compassionate 24-hour care and medication makes all the difference.

Rosehedge is celebrating 20 years of caring with a summer BBQ. They would love to see old friends and new supporters there!

Saturday, July 26, noon-4 p.m.
Jude Jackson House—12718 15th Avenue NE
Parking on street or at St. Matthew's church across the street
RSVP at 206-365-6806, ext. 229, or jwilliams@rosehedge.org

Rosehedge was the **first** care facility for people with HIV/AIDS in Washington State, and it remains the **only** organization in Seattle providing assisted living care for people with HIV/AIDS. Two decades of experience make them the go-to experts in the field. The agency houses and cares for the most needy and vulnerable of patients: those with mental illness, substance dependency, and AIDS dementia.

More information about Rosehedge can be found on their web site: www.rosehedge.org.
